

Creatures

Creatures

Created in 2005 by Marike Fichardt, a mum who wanted nothing but nature for her new born daughter.

Images created by children's book illustrator John Butler, inspired by Marike's love for her homeland, South Africa.

Ingredients

Rooibos has natural healing properties.

Chamomile aids irritated skin, relieves pain, and may even calm nerves.

Lavender has a soothing aroma which helps balance emotions and can calm a fractious baby.

Shea Butter softens skin, enhances cell regeneration, prevents and minimizes stretch marks and contains anti-aging properties.

Jojoba Oil helps to balance skin's sebum, so it moisturizes dry skins and eases the oil production in oily skin.

Aloe Vera is a popular plant used to relieve pain and assists in the healing of wounds, sunburn and inflammation.

The Creatures Guest Collection

This gift pack is the perfect treat when families with little ones come to stay. It's safe and cute, bringing joyful experience for kids and their family.
